SABBATH SCHOOL CONTEST IS ON

1686 Students Present Last Sunday In Competing Schools

INCREASE NOTED

Leaders In Campaign Last Year Again Head The List—Figures are Given

The Sunday school attendance campaign of the Alexandria Sunday schools is under way and showing remarkable increases, as it did last year, 1686 students were chalked up last Sunday, the first of the campaign. This total is 268 more than the total furnished the Y. M. C. A. for the winter months, which was 1418.

A glance at the attendance records of last year also reveals the delightful fact that Sunday school attendance in Alexandria is very much on the increase. 1212 was the total average for the winter months of 1920, while that for the same months of this year was 1418. The average per school last year was 158 while the average of the participating schools this year is 236.

The winners of last year's campaign are leading off this year. The remarkable progress of the Second Baptist school was the wonder of the campaign last year. This year, however, they have a much higher average of attendance to compete against and it remains to be seen whether they can keep up the surprising pace of the campaign. Geo. K. Bender, the superintendent, says it will be done and the start would seem to indicate that they mean business.

Below is given the schools with their average attendance for the winter months, their attendance last Sunday, and their per cent for the day: Second Baptist, winter average 141, attendance last Sunday 188, per centage of attendance 133; First Baptist winter average 446, attendance last Sunday 571, per centage of attendance 128.

M. E. South, winter average 408, attendance last Sunday 487, per centage 119; Trinity M. E., winter average 120, per cent 105; second Presbyterian, winter average 160, attendance last Sunday, 167, per cent 104; St. Paul's, winter average 143, per cent 103.

The schools ranked in winter attendance as follows: First Baptist, M. E. South, Second Baptist, Second Presbyterian, St. Paul's, and Trinity M. E. All of the schools are organized for a strenuous summer attendance campaign and the "slump" so much feared by Sunday school enthusiasts will, like last summer, be unknown in Alexandria Sunday schools.

On next Thursday afternoon the Masons and Odd Fellows will play a game of baseball on the Baggett field for the benefit of the Salvation Army fund. The game will be one of unusual interest as this is the first time that these two teams have been matched, and both sides are making preparations for a big game and anything in baseball is apt to happen. In addition to the stars of both of these organizations the added attraction will be "Nick" Altrock of the Washington Baseball team as umpire, and Nick will furnish all kinds of amusement for the fans, as is his usual custom at all of the games played by the Washington team. The admission will be fifty cents and the tickets are selling rapidly.

Taxation Questions

1400 Business Organizations Asked By C. C. To Vote on Same

More than 1400 business organizations throughout the country have been asked to vote on a series of taxation questions submitted by the board of directors of the chamber of commerce of the United States. The ballot was received today at the office of the Alexandria Chamber of commerce.

The vote is on forms of taxation and does not deal with amounts of revenue to be fraised. Its purpose is to fix the national chamber's position on the forms of levy which might be used if needed to replace revenue lost through the proposed repeal of the excess profits tax; to determine an attitude with respect to the continuance of war excise taxes, and to get opinion as to the form of taxes that might be substituted for excise taxes if the revenues now derived from them have to be replaced.

COLONIAL BEACH SERVICE

Alexandria people are assured more consideration this season than they have received for many years in steamboat service to Colonial Beach, our immediate summer resort.

A new enterprise which we surely needed has at last come to us. It is the Potomac Steamship Company who have given us the opportunity to visit the historic places along the Potomac as well as giving us a good days fun at the beach.

The steamer Rosedale, which has been thoroughly overhauled and paint ed, will make the trip to the Beach: Sunday, Tuesday and Thursday at nine thirty, and on Saturday at two o'clock.

Those beautiful moonlight trips, also on Monday and Wednesday at 7:30 p. m.

PLUMB LEAGUE PLAN SEEN AS DEAD

Little Expected to be Heard of Proposal at A. F. L., Convention

BUILDING FIGHT

Metal Trades' Program For "One Big Union" Is Defeated—Secretary Den by Commended For Action

Denver, June 11.—The Plumb plan is dead. By agreement of its one time friends in the railroad unions and its foes in the other unions, making up the American Federation of Labor no formal announcement of its demise will be issued.

Little will be heard of it in the convention of the federation which meets here next week. Instead the followers of Samuel Gompers, who opposed it, and Bert M. Jewell, of the railway department, who fathered it and spent vast sums trying to keep it alive, area greed on a policy of "watchful waiting," until the railroad situation begins to clarify.

Because of this agreement and the pressure of work in Chicago many of the railroad chiefs who, in the convention a year ago, succeeded in forcing through a near indorsement of the plan, will be missing when the convention opens next week, and it is doubtful if the railroad unions make any contest for a place in the executive council of the federation. Just now all the indications are that the administration from Samuel Gompers down will be reelected, though a shift is at all times possible.

Disposition in advance of the convention of the railroad issue leaves the quarrels within the building trades the chief bones for contention That involving the support of the board of jurisdictional awards, based on the refusal to date of the carpenters to abide by the decision giving metal doors and windows to the sheet medal workers, brought up in the building trades department by President Donlin yesterday, has kept a committee of the department in almost continuous session since.

The New York Building Trades Council's affairs are also being thrashed out in the law committee today. The committee has before it a mass of matter, including a decision by the executive council of the federatioin that the law on which Brindell built his machine within the council limiting membership, to business agents elected for a term of three years is illegal and must be rescinded. There is also a resolution, based, in part, on this ruling, presented by the bricklayers, plasterers, painters and hodcarriers, instructing the president of the building trades department to proceed to New York, demand the obedience of the council to all union laws and, failing to get obedience, take the platerer from off the wall and proced to set up a council that will be really representative.

Advocates of the "one big union" much much noise yesterday afternoon in the convention of the metal trades department, and then took the severest drubbing they have yet received in a meeting of that body. They made their fight on a resolution adopted by the Rochester convention of the Innternational Association of Machinists decrying the present method of craft organization and calling for a "federation of crafts."

W. H. Brown and C. F. Grow, of the machinists, made a hard fight for adoption of the resolution which which was opposed by James Wilson, of the paternmakers; Edward Evans, of the electricians, and M. J. Maguire, of the boilermakers.

With this out of the way the de-

DISARAMENT EFFORTS GAIN FAVOR

Harding Receives Informal Assurances From Several Powers

SENT TO HARVEY

President Will Not Try to Dictate Foreign Peace Resolution—Awaits Action of Congress

Washington, June 11.—President Harding already is in possession of informal assurances from some of the powers of Europe that they are willing to discuss disarmament or a limitation of armaments with the Government of the United States.

These assurances, it was intimated at the White House yesterday after noon, have been received through Ambassador George Harvey, the American member of the Supreme Council, who was directed by the President to sound other powers represented in that body upon the general question of disarming.

The move which the President made in instructing Mr. Harvey to put out feelers in the direction of disarmament and the responses now in hand which are not unfavorable to the general principle constitute the President's answer to the questions which have been raised in Congress as to his apparent unwillingness to have the House and Senate mix in the matter.

It is the President's belief, it became known this afternoon from official sources, that his own advances toward a disarmament arrangement, plus some expression from Congress as to its eagerness to see this brought about, will probably expedite the calling of some sort of international conferences which will pave the way for world wide reform in the matter of heavy armaments.

President Harding, although he would have preferred no Congressional action on disarmament at this time and so indicated in his earlier conversations with House and Senate leaders, let it be known today that he had declined to "stall" the progress through the House and Senate of the disarmament amendment to the Naval Appropriation bill, which is now considered in conference, and that he will take no part in the debate between the two houses as to the form which the Congressional expression will take.

At the same time, it was authoritatively disclosed that the President will not try to dictate the form that teh resolution declaring peace with the Central Powers of Europe shall take. The President will not concern himself with the difference between the House and Senate over whether the Knox resolution or the Porter resolution shall be adopted. This difference is largely a matter of pride of authorship on the part of the two leaders, the White House is convinced.

The declaration of peace by resolution is up to Congress. The President it is now known, stands ready and waiting to sign any measure to that end as soon as it comes to him. There was a reason, while the reparations issue remained unsettled, why the Administration wanted no precipitate action upon the peace resolution, but it was stated today that the reason no longer existed.

It is realized, however, by official Washington that something of an anomaly is presented with respect to peace and disarmament. While the President, at one end of Pennsylvania avenue, mindful of his campaign pledge to respect the Constitution prerogatives of each branch of Congress, declines to interfere with the course of action of those bodies in pending international matters, Congressional leaders at the other end of the avenue are asserting privately that they find it difficult to proceed because the President does not tell them what he wants them to do.

This, it is admitted, is a situation which cannot endure if much is to be accomplished at this session. The President, it is believed, will find it necessary to take a hand in the action of Congress or that body will drift.

Vacation Time. For the benefit of those work-weary mortals amongst us who would like to get away for a vacation and have neither the time to lose nor the filthy lucre to spend, we would like to commend the new idea which has grown in favor during the past few years of spending your vacation at home.

Some such prescription as this has been given by a number who have tried it and found it to work: Go to work each morning by a new route if possible, walking unless it is absolutely necessary because of distance to ride; change your habit of dining in the evenings, closing your kitchen where household duties are heavy, and restoring to such things as basket picnics in the open and occasion hotel or restaurant dinner parties; get out in the open and take as much exercise as your spare time affords; avoid the usual entertainment and amusement in which you indulge in the winter months; and above all else adopt a hobby, swimming, fishing, boating, golf or tennis, butter-fly chasing being better than nothing. A big palm-leaf fan and a even disposition are among the prerequisites for vacationing at home.

Taxing Home-Building. Strange things come to pass. Representatives of the Southern Pine Association, the Western Pine Manufacturers' Association and the Northern Pine Association have all protested to the House Ways and Means Committee against a tentatively adopted tariff duty of 25 per cent on finished lumber.

The lumber producers do not want a protective tariff on finished lumber from Canada, they say. Such a tariff as proposed would add $250 to the cost of every $5,000 house built in this country and "would counteract all the good which has been done by local communities to revive the building industry," they declare. Furthermore, the depletion of our forests "would be advanced many years by the adoption of a protective tariff policy," they point out. Altogether, they give the tariff on lumber a pretty black eye and incidently expose the iniquity of the whole high protective tariff principle.

Gold Dust and Mud. Senator "Pat" Harrison of Mississippi, with characteristic vivacity of expression, yesterday referred to George Harvey and Admiral Sims as the country's 'Gold Dust Twins' in England.

Which is an apt enough expression except that the gold dust twins are usualiy cleaning things up with their favorite powder while Harvey and Sims have been quite busy throwing mud.

An apology is therefore due the gold dust twins.

IDLE HOUR THEATER

Burton George, famous director of Selznick pictures, whose latest success, "The Valley of Doubt," will be the featured attraction at the Idle Hour Theatre today, has piloted successfully an enviable number of plays to the screen. With the completion of "The Valley of Doubt," scenes for which were taken in the snowbound regions of the North, Mr. George has rounded out a record of about forty feature photoplays for himself.

"The Valley of Doubt," claimed by Mr. George to be his finest production, is described by the reviewers as a photodrama of unusual scenic effects, dealing primarily with the life of those rugged beings who inhabit the lumberlands of the North.

Throughout the entire run of the story there has been injected many intense, interest compelling dramatic moments, notable among them being two of the most realistic fights ever staged before a camera.

Other prominenet members of the cast are Thurston Hall, Anna Lehr, Jack Costello, Robert Agnew, John Adrizoni and T. M. Murphy.

Plum League Plan Seen as Dead

(Continued from Page One)

partment approved the recommendation of President James O'Connell, that its officers work out a plan of closer co-operation between the several unions. Under this it is proposed to get joint action on such matters as general wage reductions, movements for increased hours, the open shop and individaul contracts. It is also hoped to result in checking "snap" strikes.

A resolution presented by former Coroner Timothy Healy, of New York, commending Secretary Denby for calling upon Admiral Sims to explain his London speech and asking the President to cashier him if the press reports of it prove correct was adopted by the department. A resolution calling for a boycott of British goods is in committee of the building trades.

IN MEMORIAM

WINDSOR—A sacred tribute of love to the memory of our husband and father, EDWARD WINDSOR, who departed this life one year ago today, June 12, 1920.

When we saw our precious father,
Whom we tended with such care,
Slowly fading from our presence,
How our aching hearts despaired.
God has claimed our darling father,
Took the one we loved so dear,
To fill his place there is no other,
Yet we know he did his share.
Lovingly and tenderly we laid him to rest,
Away from earth's sorrow and care,
And now he is waiting to welcome us home,
With the blessings of heaven to share.

His devoted wife, Julia, and children, Raymond, Elsie and Helen.

Alexandria Sunday School Baseball League—Standing of the Teams

Team	W	L	PC.
First Baptist	3	1	750
Southern Methodists	2	1	666
Trinity M. E.	2	1	500
Second Baptist	0	3	000

Score yesterday, Trinity M. E. 4; Second Baptist 3. Game Wednesday June 15, M. E. South vs. Trinity M. E. Postponed tie game Monday afternoon June 13, Southern Methodists vs. Second Baptists.

"The best game of the season," is the way they speak of the game last night between the Trinity M. E. team and the Second Baptist boys, of the Sunday school league. The Trinity team played errorless ball for eight innings—the game being tied at the end of the seventh. It would seem that they deserved to win.

The Trinity team seems to revolve very successfully around Pitcher Upton who succeeded in fanning eight Baptist players in as many innings. He pitched the entire game while the Baptists relied on Smoot for a time and then switched to Graves. Batting honors seemed to be pretty well divided, each team getting two two baggers to enliven the game.

The ame abounded in sensational catches, Smoot, Pearson, Johnson and Wood, each having contributed one during the game. The teams each showed up to a very much better advantage than at any previous game, thus demonstrating the fact mentioned in a former article, that all teams would vastlyi improve during the playing season.

STANDS UP FOR DANCING

Richmond, Va., une 11.—Miss Julia Priddy has refused the request of the Rev. W. A. Gunton, pastor of Woodland Heights Baptist Church that she made a public confession of wrongdoing because she danced.

The Rev. Mr. Gunton came here last fall from Riverside Baptist Church, Baltimore.

Miss Priddy, who is a John Marshall High School graduate, was suspended from the church choir following a reception given some time ago to the graduating class by Governor and Mrs. Westmoreland Davis at the Executive Mansion.

She also has resigned her position as superintendent of the primary department of the church Sunday School.

This statement was authorized today by relatives of the girl following the issuance of a statement by the deacons of the church, denying in substance that any effort has been made to discipline her for dancing.

When instructed by the deacons not to sing in the choir the Sunday following the dance, Miss Priddy left the church in a distressed frame of mind. Last week the pastor and several deacons visited her in her home. The edacons were apologetic and gave the family the impression that they thought the pastor also owed her an apology, but no apology was forthcoming from him. Instead, he spoke vigorously on the subject of dancing and other amusements and requested that she made public confession of her fault.

Miss Priddy insisted that she had done no wrong and was firm in declining to comply with the pastor's request. It developes that resolutions condemning dancing were adoptedted at a meeting of th church board the night following the Governor's reception, and it is stated that Miss Priddy has not indulged in dancing since that action was taken

It also developed that the Baptist Ministers' Association recently declined to adopt resolutions pertaining to dancing and other wordly amusements offered by the former Baltimore pastor. Instead, a more conservative series of resolutions drawn by Dr. George W. McDaniel, of First Baptist Church were adopted.

The crusade against the modern dance, woman's scant apparel and similar social conditions was started about a month ago by Dr. Ennion Williams, Virginia State Health Commissioner, who is a brother of R. Lancaster Williams, the Baltimore banker.

School Yard Sprinkled With Dynamite Caps

Quakertown, Pa., June 11—Upward of a score of dynamite percussion caps were found by children at the Central Public School grounds yesterday, resulting in the injury of Orlande Smith, son of Borough Councilman Calvin Smith, who received a cut hand and a cut in the abdomen, when one of the caps exploded.

Calvin Ruth, an ex-service man, who lives near the school grounds, was burning rubbish several days ago when a severe explosion occurred which cut him severely.

Under what circumstances the deadly caps happened to be strewn in the vicinity has not been determined. A rigid investigation will be made by the school authorities and Police Chief Rhoads.

CHEMISTS DENOUNCE NEW VOLSTEAD BILL

New York, June 11—The New York section of the American Chemical Society last night protested against the new Volstead bill before Congress on the ground that it would regulate production of industrial alcohol in a manner such as to cripple many industries.

Speakers asserted that commercial alcohol was essential to manufacture dyes, celluloid, photographic film bedicine, high explosive and poison gases.

The Anti-Saloon League was criticized for sponsoring the new bill beer, was said to include jokers that would place in jeopardy the livelihood of thousands of workers.

W. L. Crounse, of Washington, counsel for the National Wholesale Druggists' Association, asserted that, although reputable manufacturing concerns had trouble in obtaining enough alcohol, fly-by night concerns got all they wanted.

600 Miners Escape From Blazing Mine After Being Trapped

Peru, Ill., June 11.—Six hundred miners, trapped by fire in the Chicago, Milwaukee and St. Paul Railroad mine at Mark, near here, escaped through the emergency shafts.

This announcement was made yesterday by James Steel, superintendent after mine officials had checked up all the rescued with the payroll lists. The burning mine is located ten miles south of here.

The fire started in a machine shop about half a mile back from the main shaft and blocked the exit of the miners. The State rescue crew has sealed the burning tunnel. The crew, in helmets, made an attempt to enter it, but was unable to go within half a mile of the fire.

Pittsburgh, June 11.—Officials of the mine rescue section of the United States Bureau of Mines were notified of the accident at Peru, Ill, this afternoon They said the nearest rescue car was at Vincennes, Ind, and if necessary would be ordered at once to Peru.

THEY say the World has gone
to pot
Because of all the saffron lot
Of Bolsheviks
And other tricks
That keep us all in water hot.

While I can hear
The laughter clear
Of little children everywhere.

A WOMAN'S BACK

The Advice of This Alexandria Woman is of Certain Value.

Many a woman's back has many aches and pains.

Oftimes 'tis the kidneys' fault.

That's why Doan's Kidney Pills are so effective.

Many Alexandria women know this. Read what one has to say about it. Mrs. F. M. Entwisle, 1007 Gibbon Street, Alexandria, says: "The pains in my back were something awful and no matter how I turned I couldn't get rid of them. There was a sore and lame feeling and a heavy bearing-down ache in my back all the time. My head felt as though somebody were pounding it and I became very nervous. I had dizzy spells, too. The way my kidneys acted bothered me a lot and caused me no little pain. The first box of Doans Kidney Pills gave me relief and by the time I had finished the second one all my kidney trouble had left me; I was entirely cured."

Price 60c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mrs. Entwisle had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

ARE THE JAPANESE REALLY EFFICIENT?

Not If You Judge Them By Their Telephones, Says Julian Street

Although the Western World has begun to take for granted that the Japanese have reached an enviable position in the world because of an alleged efficiency in all matters, a close inspection of actual facts shows up the Jap as almost childish. Writing for McClure's Magazine in an article entitled "Are the Japanese Efficient?" Julian Street, noted traveler and writer, gives many instances of stupid Japanese inefficiency, particularly as to telegraphs, telephones and transportation.

"Tokyo, with a transportation problem which ought easily to be solved has utterly inadequate street car service," says Mr. Street. "The rush hour there is only saved from being as terrible as the rush hour in New York by the lack of subterranean features.

"But it is in all matters having to do with communications that Japanese inefficiency is most strikingly brought to the notice of strangers. The postal service is poor, the cable service is expensive and absurdly slow (when I was in Japan it took about ten days to cable to America and get an answer back), and the telephone service is unbelievably awful. All these, like the railroads, are owned and operated by the Government.

Tag Day A Success

Nearly Every One Helps Salvation Army Fund

Hundreds of tags for the Salvation Army fund today were sold on the streets of the city by young ladies and almost everyone bought a tag. The work of disposing of the tiny pieces of carboard bearing the slogan, "Salvation Army Fund,, was begun early this morning and will be continued till late tonight. The rain, however, which started shortly after 2 o'clock this afternoon some what hampered the workers in their plans. The vast majority of the tags, however, had been disposed of long before that hour. In the interest of the cause a concert will be given by the Citizens' Band tonight at King and Washington streets.

GALBRAITH FUNERAL TO BE ATTENDED BY THOUSANDS

Cincinnati, Ohio, June 11.—Many high officials of the American Legion commanders of many of the legion posts in various parts of the country, Assitant Secretary of the Navy Theodorse Roosevelt, Governor Harry Davis, of Ohio; the members of the Ohio Supreme Court, and many other prominent personages will be in Cincinnati tomorrow to attend the funeral services for Col. Frederick W. Galbraith, of this city, commander of the American Legion, who was killed in an automobile accident in Indianapolis yesterday morning.

The entire city will pay tribute to the memory of Colonel Galbraith, who, in addition to his splendid military record overseas, was a man of great public spirit and vitally interested in the welfare of Cincinnati.

The body will lie in state in the great rotunda of Music Hall from 10 A. M. tomorrow until 2 p. m., at which hour the services will be held in the hall. The casket will be guarded by Regular Army soldiers from Fort Thomas, Ky. The services will be in charge of the Rev. John F. Herget, pastor of the Ninth treet Baptist Church, this city, who served as chaplain of the One Hundred and Forty Seventh Infantry, which was commanded by Galbraith during the war. He will be assisted by the Rev. Frederick McMillin, of the First Presbyterian Church, of Walnut Hills, who also was an over seas chaplain.

The music will be furnished by the choir of the Calvary Episcopal Church, of which Colonel Galbraith was a member.

The services at the cemetery will be brief. "Taps" will be sounded by a corps of buglers and a squad from Fort Thomas will fire a salute over the body.

DECKER GIVEN LIFE TERM

Jury Returns Verdict After Being Out Three Hours

Warsaw, Ind., June 11.—Virgil Decker, 19-year-old farmer boy, was found guilty of murder in the first degree in connection with the death of Leroy Lovett, his associate, by a jury in Circuit Court here last night. He was sentenced to life imprisonment.

Six ballots were taken by the jury Decker being found guilty on the first ballot, and the succeeding ballot being taken to determine the punishment, some of the jurors holding out for the death penalty. The jury was out less than three hours.

The case of Decker, who was accused of murdering Lovett, said to have been his "double," as the outcome of an alleged conspiracy between members of the Decker family to kill Lovett, claim his body as that of Decker and collect $24,000 in life insurance, was given to the jury at 3.30 o'clock this afternoon.

Stricken Autoist Dies As Car Goes Over Bank

Belvidere, N. J., June 11.—When George Beam was stricken with apoplexy as he was driving an automobile toward the approach of the Delaware River bridge here, his machine swerved over an embankment, carrying himself his wife and his mother-in-law, Mrs. Julius Devoe all of Delaware, N. J., with him.

The machine went over a 15-foot embankment and just avoided going into the river. Beam died at the wheel, while the others escaped injury.
